

Press Release

For immediate release (Longmont, Colorado 09/01/2007): Sangat Precision Machining & Grinding, A Longmont Colorado-based Manufacturing Company Adds Polycom as a Client.

Sangat Precision Machining & Grinding is pleased to announce the addition of Polycom as a client for the company's precision machining services. "High quality, competitive prices, and excellent communication - those are the reasons we work with Sangat Precision. Communication in particular is a key factor as far as quality is concerned. We virtually eliminate the possibility for error in the manufacture of our parts because Eric Potter, Production Manager at Sangat Precision is excellent at making sure there is an open line of communication. When issues or questions come up, the quality of communication involved is such that we rarely have problems with the resulting parts." says Bill Brennan of Polycom. Michelle Jordan, COO of Sangat Precision adds: "We pride ourselves in being a key domestic partner for Polycom. In a time when much American manufacturing is going overseas, we are thrilled that we are doing the right things in order to keep manufacturing at home."

Polycom, Inc. is the worldwide leader in unified collaborative communications (UCC) that maximize the efficiency and productivity of people and organizations. Polycom delivers the broadest array of high definition telepresence video, wired and wireless voice, and content solutions so people can enjoy the best communications, whether from a real-time collaborative interaction or thru on-demand streamed video experience. Spanning from the desktop to the industry's only immersive telepresence suite, Polycom's high quality collaboration and communications solutions are easy to deploy and manage, as well as intuitive to use. Based on open standards, they integrate seamlessly with leading telephony and presence-based

networks. With innovative market-driving technologies, a compelling vision for next generation visual communications, best-in-class products, alliance partnerships, and world-class service, Polycom is the smart choice for organizations to gain a competitive advantage with proven and trusted communication solutions. For additional information, call 800-POLYCOM or visit the Polycom web site at www.polycom.com.

Sangat Precision Machining & Grinding is a Longmont Colorado-based precision manufacturing company. Sangat Precision, an ISO 9001:2000 certified facility, provides precision machining and manufacturing services for Aerospace, Defense, Science, Medicine, and Small-arms manufacturers.
